"I remember so well my son's first Christmas at Johns Hopkins Children's Center. My momma heart was so sad that he wasn't getting the typical first Christmas. The sadness turned to joy, as not only my son, but his sisters were loved on by the entire Johns Hopkins family. He met Santa and his elf and it was beautiful. Thank you so much for all that you do for the children and for the families. It is not a typical thing to spend Christmas in the hospital, but this still warms my heart when I think about it and how special it became."

-The mother of a patient at Johns Hopkins Children's Center
